### **NICOTINE WITHDRAWAL**

Nicotine is in most vapes and it's very addictive. The more you vape, the more your brain and body get used to having nicotine, and the harder it is to stop. Quitting vaping may cause many uncomfortable feelings and strong urges to vape. This is nicotine withdrawal.

## **PART 2: DEALING WITH PEOPLE**

Sometimes the people you used to vape with may encourage you to keep vaping. This can be frustrating and discouraging. However, thinking about this ahead of time can help you to prepare a response and stick to your plan.

### **What will you say if your friends ask you to vape with them?**

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.
